In Accordance with Rule 17 of Rules and Regulations as Originally Printed HERE'S HOW TO GET MAXIMUM VOTES: Extended or second payment subscriptions to The Eloa Time

Clipper count for extra large votes in the big "Everybody Wins" subscription contest, fast nearing For example, a certain party bought a yearly subscription in the early part of the contest and now wishes to extend that subscription for another four years at the rate now in effect, for the purpose of boosting his favorite candidate. Since a ten-year subscription earned earned 3,000 votes, this extension for four years would earn the difference of 22,000 votes. Also, the first three-year subscription earned 8,000 votes so the two-year extension (for only \$3.00) to complete five years would earn 17,000 votes, and if the original subscription was turned in during the contestant's first week

in the contest, it would also earn the additional 25,000 extra special votes allowed as stated in th opening announcement of the contest. In addition to this, there are 50,000 extra votes for each "club" of \$20 turned in. So if you and a couple of dozen other good friends like yourself would extend your original on year subscription to the five-year limit, you would earn for your favorite contestant the tremendous total of over one and three-quarter million votes which would go a long way toward winning that new
